pong

X. Jing
2:45 PM

Gilles Caulier
2:46 PM
hi all. sound has huge echo here (from France)

Andreas Huggel
2:46 PM
quite ok here now after turning off the mic

me
2:47 PM
Echo off

Gilles Caulier
2:47 PM
my mic is off too
sound like very not understandable here

Tuan Nhu dinh
2:47 PM
ok, sure

X. Jing
2:47 PM
ok

Andreas Huggel
2:48 PM
ok with me

me
2:49 PM
Echo gain

Gilles Caulier
2:50 PM
KDE jenkins is also used with KDE project

me
2:54 PM
Looking forward to it!

Andreas Huggel
2:55 PM
yes I would!

Tuan Nhu dinh
2:58 PM
robin, can't hear you now

GMT +8

Tuan Nhu dinh
3:00 PM
yes, can hear you now

Andreas Huggel
3:00 PM
yup, you're back
GMT+8

Gilles Caulier
3:00 PM
About XMP update, what's about to use exempi shared lib ?
https://github.com/hfiguiere/exempi

Tuan Nhu dinh
3:00 PM
yes

Gilles Caulier
3:00 PM
not me. huge echo here

Andreas Huggel

3:01 PM

Gilles, yes if possible.. the last time I looked it didn't support all the necessary platforms

---

Gilles Caulier
3:01 PM
ok Andreas
thake a care that XMP source code include severals code probem detected by Coverity Scan
i want mean XMP SDK
from Adobe
I'm sure, i already loade XMP sdk code in Coverity through digiKam, and i see code dysfunctions

---

Andreas Huggel
3:03 PM
Ok Gilles. How should we go about it? The more we change the less compatible we are

---

Gilles Caulier
3:04 PM
Mic doesn't work
it include huge echo

Andreas Huggel
3:04 PM
Gilles say something :_

Robin Mills
3:04 PM
Gilles. Can you unmute. We can't hear you!

Andreas Huggel
3:04 PM

Mahesh Hegde joined group chat.

Gilles Caulier
3:04 PM
umute doesn't work

Robin Mills
3:04 PM
Come in France. We can't hear you!

Gilles Caulier
3:05 PM
Wait i try it again

Robin Mills
3:05 PM
Can you say a few words about Coverity Scan?

Mahesh Hegde left group chat.

Gilles Caulier
3:06 PM
Coverity is a huge static code analyser
it cover a lots of huge open source projects, as Linux kernel for ex
All major open Source project use it now
KDE, Gnome, Linux, etc...
This is a very important piece of software to analys and detect errors in code, especially from contributors

---

me
3:09 PM
Echo again

Gilles Caulier
3:11 PM
YES
shared lib must use d private internal container technic
everywhere when it's possible
the problem is not API directly, but ABI versus API
there is a online tool to check ABI/API change between versions
Exiv2 is already scanned by this tool

Mahesh Hegde joined group chat.

Gilles Caulier
3:14 PM
http://upstream-tracker.org/
look this url and check Exiv2

Andreas Huggel
3:14 PM
Thanks Gilles, I'll check that out

Robin Mills
3:14 PM
OK. Well if nobody's volunteering, I'll take this on in 2015.
WONDERFUL.

If we're going to change, can we do it soon, or defer it to 2015?
Let's avoid anything major after September 1.

Robin, do ask about possible future GSoC projects to propose ?
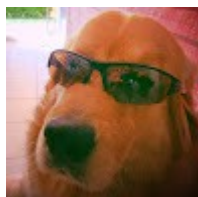

me

3:23 PM

I guess porting to Android can be a cool task. But someone will need to mentor that.

Mahesh Hegde
3:24 PM
yes Gilles

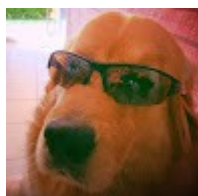

Gilles Caulier
3:24 PM
Google Image support will be certainly very well accepted by Google

me
3:27 PM
No, we see you
Not the Jenkins interface.

Gilles Caulier
3:27 PM
echo is horrible here

Tuan Nhu dinh
3:28 PM
Robin, we can see you not Jenkins

Robin Mills
3:28 PM
You don't want to see me. You want to see Jenkins!
I've never used Google+ shit. I'm not sure how it works.

Mahesh Hegde joined group chat.

Gilles Caulier
3:29 PM
for info, we have a Jenkins tool in KDE project :

Maybe you want to share your computer screen again? It keeps flickering here.

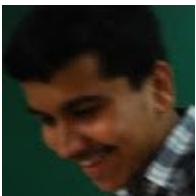

Mahesh Hegde left group chat.

Gilles Caulier
3:30 PM
mahesh, do you registered to Coverity Scan ?

Mahesh Hegde joined group chat.

---

me
3:31 PM
Could you try turning off the camera app and then switching to screen share?

Mahesh Hegde
3:31 PM

can some please copy all the chats post hangout..? i missed some of the chats

Gilles Caulier
3:32 PM
mahesh, i ask you about Coverity Scan
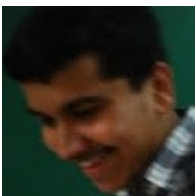

Mahesh Hegde left group chat.

Gilles Caulier
3:32 PM
are you registered to Coverity
?

Mahesh Hegde joined group chat.

Mahesh Hegde left group chat.

me
3:33 PM
When do we start?
OKay. Fine with me.

Andreas Huggel
3:36 PM
Gilles, d-pointers are called p_ pointers in Exiv2. We have a few..
That link is a good summary of what to look out for to keep the code ABI compatible

Gilles Caulier
3:37 PM
ah interesting.
Andreas, d pointers is just a start to increase ABI compatibility
private method must be moved into d container
